# Installation instruction EQUUS_39-49 with cable

0. The installation should be carried out by qualified personnel only.

1. Ensure Voltage and Frequency match values shown through rear window(A).

2. Mount EQUUS either by stainless steel screw (M10, ST9.5), strap, ground spike or with SPEKTOR_Mounting_Adaptor (accessory, see rear page).

3. Disconnect mains power before terminating wires of cable (B): brown=phase, blue = neutral, yellow/green = earth. Seal electrical connection as needed, ideally with an IP68 connector.

Ta = 40, IP66

SPEKTOR_Mounting_Adaptor (accessory)

on flat walls or corners with 2 crews ST4.8 (A) **50mm** apart:

or with metal straps on poles with diameter 102mm, 114mm or larger:
